After all is said and done, it took about two million peppery Americans to make Marshal Foch a genius.

A parent who evidently disapproved of corporal punishment wrote the teacher: "Dear Miss: Don't hit our Johnnie. We never do it at home except in self defense."—Ex.

Johnnie: "Mother, where does the fire go when it goes out?"

His Mother: "Why son, I don't any more know where it goes than I know where your father goes when he goes out."—Ex.

### The Best Laxative.

"My sedentary habits have necessitated the use of an occasional laxative. I have tried many but found nothing better than Chamberlain's Tablets," writes George F. Daniels, Hardwick, Vt. Mr. Daniels is proprietor of the Hardwick Inn, one of the model hotels of New England.

## Has Had Stomach Trouble For Seven Years.

Theodore Sanford of Fenmore, Mich., has had stomach trouble for seven years and could not eat vegetables or fruit without pain in the stomach and restless nights. By taking Chamberlain's Tablets he is now able to eat vegetables or fruit without troubled with indigestion or causing pain or sleeplessness. If stipitation give these tablets a trial. They are certain to prove beneficial. Adv.

### Why Colds Are Dangerous.

You are often told to "beware of a cold," but why? We will tell you: Every cold weakens the lungs, lowers the vitality and paves the way for the more serious diseases. People who contract pneumonia first take cold. The longer a cold hangs on, the greater the danger, especially from the germ diseases, as a cold prepares the system for the reception and development of the germs of consumption, diphtheria, scarlet fever and whooping cough. The quicker you get rid of your cold, the less the danger of contracting one of these diseases. Chamberlain's Cough Remedy has a great reputation as a cure for colds and can be depended upon. It is pleasant to take. Adv.

## Time Different Eggs Take For Incubation.

The period of incubation varies with species of poultry. Hens eggs require 21 days; pheasant, 22 to 24 days; duck, 28, Muscovy duck, 33 to 35; turkey, 28; peafowl, 28; guinea, 26 to 28; ostrich, 42; goose, 30 to 34.

Conditions also affect incubation so that in some cases a hatch may run one or two days over, due to an accident during incubation or to a low temperature throughout that period, while, on the other hand, the period may end earlier. If through any accident the eggs are chilled or overheated, it is advisable to continue the hatch, testing the eggs after a few days to determine the extent of the damage, say Department of Agriculture poultry specialists. Chickens have been hatched from eggs left out of the incubator all night, as well as from eggs which have been subjected to a temperature of over 110° F. for a short time.
